**A Research project Submitted to the School of Business and Economics, In Partial
Fulfillment for Award of a Bachelor Degree in Bachelor of Economics (Accounting option)**

APRIL 2019

ABSTRACT

This research was carried out in order to examine the impact of audit independence on financial performance in KARLO EMBU. To determine the relationship between audit independence and financial performance of KARLO in Embu. To examine the existing interaction between the audit independence and quality of financial report and to determine which form of auditing is mostly preferred in KARLO EMBU. Hence, the study is a movement towards improving the quality of audit practice. In conducting this research both primary and secondary data were used. The study captured the opinions of respondents who included 20 workers from the institutions which were analyzed using the SPSS software. The data gathered were used to test the research hypotheses and answer some of the research questions. The study found a significant and positive relationship between audit quality and the quality of financial performance
